Hop In The Backseat!

PUNK ROCK HOLOCAUST IS COMPLETE! PUNKS NOT DEAD...BUT IT'S ABOUT TO BE!

Over the Summer of 2003, Doug Sakmann set out on the Vans Warped Tour with the Backseat Conceptions crew in a beat up, old-school, school bus full of film-making and special effects equipment to create the ultimate punk rock slasher movie. Now, one year later, we are proud to present **PUNK ROCK HOLOCAUST**, in stores nationwide on DVD October 5th from Springman Records. (The initial street date was pushed back to make the DVD bigger and better, clocking in at over 3 hours of material!)

This slasher comedy film is sure to entertain horror movie fans, Warped Tour fans and punkers alike with hilarious scenes and brutal murders featuring top Warped Tour bands including The Used, Andrew WK, Pennywise, Face To Face, Atmosphere, Simple Plan, Mest, Suicide Machines, and a whole lot more.

The film follows Warped Tour founder Kevin Lyman as he tries to maintain the tour while Heather Vantress the tour reporter is trying to figure out who is behind the grizzly murders. Meanwhile, the Warped Tour crew and bands (all played by themselves) are struggling to survive and stay on the road!

Punk Rock Holocaust features the highest on-screen body count in film history with entire crowds being massacred in addition to the deaths of over 100 band members!

The initial Holocaust may be over, but the carnage isn't through yet!

A sequel is in the works, and this summer Sakmann and his crew will be back on the road to kill even more bands for Punk Rock Holocaust Online, a 6 part series that sets up the sequel and will be available online towards the end of the 2004 Vans Warped Tour. 3 episodes have already been shot, bands featured include The Casualties, The Aquabats, The Bouncing Souls, My Chemical Romance and River City Rebels. The rest of the episodes will be shot August 5-10 on the tour.
